**BILL CRAIG AND HIS C2CR2C**

Many, many thanks to Bill Craig for his bicycle ride from Carrollton, TX to Carrollton, GA (C2CR2C) to bring attention to the importance of spaying and neutering our pets and stopping the killing of animals in our shelters nationwide as a means of pet population control. We admire his discipline, tenacity, and dedication to the welfare of animals everywhere.

**Have a  
Pet-Friendly  
Halloween**

Halloween can be fun and festive for people, but for pets it can also be dangerous. Here are some tips from the AVMA to help you ensure that your pet has a happy and safe Halloween:

🎃 Don't leave your pet outside unattended on Halloween (or on the days preceding or following this holiday). Halloween pranks committed against pets can be vicious, and black cats are particularly at risk.

🎃 Halloween treats are for people, not pets. Candy wrappers and lollipop sticks can be hazardous if swallowed and chocolate can be poisonous for some types of pets.

🎃 Keep pumpkins out of reach of curious noses and paws. Pets may knock over a lit pumpkin and cause a fire.

🎃 Despite how much fun it is for people, many pets don't enjoy getting dressed up for Halloween. If you do dress your pet, be sure that its costume doesn't interfere with the pet's ability to breathe, see, hear, move, or bark.

🎃 Consider keeping your pet in a separate room, away from the door, when trick-or-treaters arrive. Strange people in even stranger clothes can frighten some pets.

🎃 When you do answer the door for visitors, make sure that your pet doesn't suddenly head for the great outdoors. In case your pet does escape, make sure that it is wearing proper identification. Pets with identification are much more likely to be returned to their owners.
